TECHNOLOGY LEADERSHIP
OF THE YEAR AWARD

2009 FROST & SULLIVAN TECHNOLOGY LEADERSHIP OF THE YEAR AWARD PRESENTED TO CYBEREX

Cyberex is continuously leading the static transfer switch market with groundbreaking technologies.

The Thomas & Betts Power Solutions R&D team is truly on the forefront of technology innovations and continues to overcome the industry challenges with innovative solutions. Cyberex leads the industry by offering high capacity STSs up to 4000A including the new **3 Source, 2000 ampere STS now available to ensure redundancy even in the event of a single source loss or failure of a single logic component.**

The Frost & Sullivan Technology Leadership of the Year Award is presented annually to the company that has demonstrated excellence in technology leadership within its industry. Power Solutions has demonstrated technology leadership by excelling in all stages of the technology life cycle – incubation, adaptation, take-up and maturity – to ensure a continuous flow of improvements. By innovating leading-edge concepts the company has pioneered client applications.

**WHEN YOUR PROJECT IS MISSION CRITICAL,
YOUR SOLUTION IS CYBEREX!**
